

Statement Regarding Yongjin Technology Group's Product Supply to the Japanese Market

Dear Valued Japanese Customers,

We would like to express our sincere gratitude for your continuing support of Yongjin products.

Founded in 2003, Yongjin Technology Group is a diversified industrial group primarily engaged in cold-rolled stainless steel, with its business spanning several sectors, including cold-rolled stainless steel sheets and coils, stainless steel water pipes, titanium alloy materials, special materials for new energy battery casings, and metal-layer composite materials. The group's production capacity for precision cold-rolled stainless steel and wide-width cold-rolled stainless steel is among the leading positions in China's stainless steel industry.

Upholding the corporate spirit of unity, efficiency, pragmatism, and development, Yongjin Group places a strong emphasis on high-quality service, top-tier products, fair pricing, and win-win cooperation. We remain committed to prioritizing customer interests, continuously providing stable, excellent, and high-quality products, alongside services that closely align with customer needs.

Joy Reap Japan Co., Ltd. (JRJP) is the Japanese subsidiary of Zunxianhang (ZXH) Group, a strategic partner of Yongjin Group. Since 2022, Yongjin Group has formally partnered with JRJP to expand into the Japanese market. By deeply understanding the local industry, we have collaboratively established a comprehensive quality control system for the Japanese market, covering every step from raw material procurement, surface processing, production, packaging, and transportation, which is continuously being improved and refined.

In August 2024, Yongjin Technology Group officially authorized Joy Reap Japan Co., Ltd. as the exclusive primary agent for our full range of products in the Japanese market. JRJP is authorized to use specially designed anti-counterfeit packaging and related identification documents for the products sold in Japan, and to exclusively provide

products manufactured according to Japanese specifications. All materials supplied to Japan by Yongjin Group, in compliance with JIS standards and sold through JRJP's formal channels, will adhere to specialized shipping standards, with JRJP responsible for localized after-sales service and consultation for special product requirements.

Moving forward, Yongjin Technology Group, in collaboration with Joy Reap Japan Co., Ltd., will continue to dedicate efforts to provide safe, stable, and reliable product supply to our Japanese customers. We aim to enhance product quality and service, working closely with our peers in the Japanese industry to eliminate disorderly, harmful competition, and to fully support the sustainable development of a healthy and regulated market.
